[Docket No. 220531–0127]

RIN 0694–A190

**Additions of Entities to the Entity List****AGENCY:** Bureau of Industry and Security, Department of Commerce.**ACTION:** Final rule.

**SUMMARY:** In response to the Russian Federation's (Russia's) further invasion of Ukraine on February 24, 2022, the Department of Commerce is amending the Export Administration Regulations (EAR) by adding 71 entities under 71 entries to the Entity List. These entities have been determined by the U.S. Government to be acting contrary to the national security interests or foreign policy of the United States and will be listed on the Entity List under the destinations of Belarus and Russia.

**DATES:** This rule is effective June 2, 2022.

**FOR FURTHER INFORMATION CONTACT:** Chair, End-User Review Committee, Office of the Assistant Secretary for Export Administration, Bureau of Industry and Security, Department of Commerce, Phone: (202) 482–5991, Email: [ERC@bis.doc.gov](mailto:ERC@bis.doc.gov).

**SUPPLEMENTARY INFORMATION:****Background**

The Entity List (supplement No. 4 to part 744 of the Export Administration Regulations (EAR)) identifies entities for which there is reasonable cause to believe, based on specific and articulable facts, that the entities have been involved, are involved, or pose a significant risk of being or becoming involved in activities contrary to the national security or foreign policy interests of the United States. The EAR (15 CFR parts 730–774) imposes additional license requirements on, and limits the availability of, most license exceptions for exports, reexports, and transfers (in-country) to listed entities. The license review policy for each listed entity is identified in the “License Review Policy” column on the Entity List, and the impact on the availability of license exceptions is described in the relevant **Federal Register** document that added the entity to the Entity List. The Bureau of Industry and Security (BIS) places entities on the Entity List pursuant to part 744 (Control Policy: End-User and End-Use Based) and part 746 (Embargoes and Other Special Controls) of the EAR. Paragraphs (b)(1)

through (5) of § 744.11 include an illustrative list of activities that could be contrary to the national security or foreign policy interests of the United States. Sixty-six entities are being added in this rule on the basis of §§ 744.11(b) and 744.21 and will receive a footnote 3 designation because the End-User Review Committee (ERC) has determined they are Russian or Belarusian ‘military end users’ in accordance with § 744.21. A footnote 3 designation subjects these entities to the Russia/Belarus foreign “direct product” (FDP) rule, detailed in § 734.9(g). The other five entities are being added solely on the basis of § 744.11(b).

The ERC, composed of representatives of the Departments of Commerce (Chair), State, Defense, Energy and, where appropriate, the Treasury, makes all decisions regarding additions to, removals from, or other modifications to the Entity List. The ERC makes all decisions to add an entry to the Entity List by majority vote and makes all decisions to remove or modify an entry by unanimous vote.

The ERC determined to add the following entity to the Entity List on the basis of §§ 744.11(b) and 744.21 under the destination of Belarus: “Joint Stock Company Eleron”. In addition, the ERC determined to add the following 65 entities to the Entity List on the basis of §§ 744.11(b) and 744.21 under the destination of Russia: “AO Rubin,” “Branch of AO Company Sukhoi Yuri Gagarin Komsomolsk on Amur Aircraft Plant,” “Branch of PAO Il—Aviastar,” “Branch of RSK MiG Nizhny Novgorod Aircraft Construction Plant Sokol,” “Chkalov Novosibirsk Aviation Plant,” “Concern Radio-Electronic Technologies, Joint Stock Company Aeropribor Voskhod,” “Concern Radio-Electronic Technologies, Joint Stock Company All Russian Scientific Research Institute Gradient,” “Concern Radio-Electronic Technologies, Joint Stock Company Almatyevsk Radiopribor Plant,” “Concern Radio-Electronic Technologies, Joint Stock Company Experimental Design Bureau Elektroavtomatika in the name of P.A. Efimov,” “Concern Radio-Electronic Technologies, Joint Stock Company Industrial Controls Design Bureau,” “Concern Radio-Electronic Technologies, Joint Stock Company Kazan Instrument Engineering and Design Bureau,” “Concern Radio-Electronic Technologies, Joint Stock Company Microtechnology,” “Concern Radio-Electronic Technologies, Joint Stock Company Phasotron Scientific Research Institute of Radio Engineering,” “Concern Radio-Electronic Technologies, Joint Stock

Company Radiopribor,” “Concern Radio-Electronic Technologies, Joint Stock Company Ramensk Instrument Engineering Bureau,” “Concern Radio-Electronic Technologies, Joint Stock Company Research and Production Center SAPSAN,” “Concern Radio-Electronic Technologies, Joint Stock Company Rychag,” “Concern Radio-Electronic Technologies, Joint Stock Company Scientific Production Enterprise Izmeritel,” “Concern Radio-Electronic Technologies, Joint Stock Company Scientific Production Union for Radioelectronics named after V.I. Shimko,” “Concern Radio-Electronic Technologies, Joint Stock Company Taganrog Communications Scientific Research Institute,” “Concern Radio-Electronic Technologies, Joint Stock Company Urals Instrument Engineering Plant,” “Concern Radio-Electronic Technologies, Joint Stock Company Vzlet Engineering Testing Support,” “Concern Radio-Electronic Technologies, Joint Stock Company Zhiguli Radio Plant,” “Concern Radio-Electronic Technologies, Public Joint Stock Company Bryansk Special Design Bureau,” “Concern Radio-Electronic Technologies, Public Joint Stock Company Moscow Institute of Electro Mechanics and Automation,” “Concern Radio-Electronic Technologies, Public Joint Stock Company Stavropol Radio Plant Signal,” “Concern Radio-Electronic Technologies, Public Joint Stock Company Techpribor,” “Concern Radio-Electronic Technologies, Ramensky Instrument Engineering Plant,” “Concern Radio-Electronic Technologies, V.V. Tarasov Avia Avtomatika,” “Design Bureau of Chemical Machine Building KBKhM,” “Far Eastern Shipbuilding and Ship Repair Center,” “Ilyushin Aviation Complex Branch: Myasishcheva Experimental Mechanical Engineering Plant,” “Institute of Marine Technology Problems Far East Branch Russian Academy of Sciences,” “Irkutsk Aviation Plant,” “Joint Stock Company Aerocomposit,” “Joint Stock Company Avtomatika,” “Joint Stock Company Bryansk Electromechanical Plant,” “Joint Stock Company Eleron,” “Joint Stock Company Experimental Design Bureau named after A.S. Yakovlev,” “Joint Stock Company Federal Research and Production Center Altai,” “Joint Stock Company Head Special Design Bureau Prozhektor,” “Joint Stock Company Ilyushin Aviation Complex,” “Joint Stock Company Lazurit Central Design Bureau,” “Joint Stock Company Ramensky Instrument Engineering Plant,” “Joint Stock Company Research and Development Enterprise Protek,”

“Joint Stock Company SPMDB Malachite,” “Joint Stock Company Votkinsky Zavod,” “Kalyazinsky Machine Building Factory—Branch of RSK MiG,” “Main Directorate of Deep-Sea Research,” “NPP Start,” “OAO Radiofizika,” “P.A. Voronin Lukhovitsk Aviation Plant, branch of RSK MiG,” “Public Joint Stock Company Voronezh Joint Stock Aircraft Company,” “Radio Technical Institute named after A. L. Mints,” “Russian Federal Nuclear Center—All Russian Research Institute of Experimental Physics,” “Shvabe JSC,” “Special Technological Center LLC,” “St. Petersburg Marine Bureau of Machine Building Malakhit,” “St. Petersburg Naval Design Bureau Almaz,” “St. Petersburg Shipbuilding Institution Krylov 45,” “Strategic Control Posts Corporation,” “TsKB MT Rubin,” “Vladimir Design Bureau for Radio Communications OJSC,” “V.A. Trapeznikov Institute of Control Sciences of Russian Academy of Sciences,” and “Voentelecom JSC”.

All of these 66 entities are designated with footnote 3. They are being added to the Entity List consistent with BIS’s response to Russia’s invasion of Ukraine, which includes restricting Russia’s access to items subject to the EAR that allow it to project power and fulfill its strategic ambitions. These 65 Russian entities and one Belarusian entity are being added to the Entity List for acquiring and attempting to acquire U.S.-origin items in support of Russia’s military. This activity is contrary to the national security and foreign policy interests of the United States under § 744.11 and these entities qualify as military end users under § 744.21 of the EAR. Their addition to the Entity List and footnote 3 designation means these entities are subject to a license requirement for the export, reexports, exports from abroad (as described under Russia/Belarus foreign “direct product” (FDP) rule, § 734.9(g)), or transfers (in-country) of all items subject to the EAR that are destined to these entities. No license exceptions are available for these entities; BIS will review all license applications for these entities under a policy of denial for all items subject to the EAR apart from food and medicine designated as EAR99, which will be reviewed on a case-by-case basis, per § 744.21(e)(1). This case-by-case review policy reflects a revision to § 744.21(e)(1) set forth in a separate rule, *Export Administration Regulations: Revisions to Russia and Belarus Sanctions and Related Provisions; Other Revisions, Corrections, and Clarifications*, that BIS is issuing and making effective simultaneously with

this rule. Among other changes to the EAR, the “corrections” rule removes an exemption for food and medicine designated as EAR99 from the license requirement for all items subject to the EAR set forth in § 744.21(b)(1)(ii) and specifies a case-by-case license review policy for Russian and Belarusian ‘military end users’ set forth in § 744.21(e)(1) with respect to food and medicine designated as EAR99. This case-by-case review policy applies to the 66 entities that are being added to the Entity List as part of this rule.

In addition, the ERC determined to add the following entities to the Entity List on the basis of § 744.11 under the destination of Russia: “A.A. Kharkevich Institute for Information Transmission Problems (IITP), Russian Academy of Sciences (RAS),” “Ak Bars Holding,” “Gazprom Neft Shelf,” “Special Research Bureau for Automation of Marine Researches Far East Branch Russian Academy of Sciences,” and “Systems of Biological Synthesis LLC.” These entities are being added to the Entity List consistent with BIS’s response to Russia’s invasion of Ukraine, which includes restricting Russia’s access to items subject to the EAR that allow it to project power and fulfill its strategic ambitions. “A.A. Kharkevich Institute for Information Transmission Problems (IITP), Russian Academy of Sciences (RAS),” “Ak Bars Holding,” “Gazprom Neft Shelf,” “Special Research Bureau for Automation of Marine Researches Far East Branch Russian Academy of Sciences,” and “Systems of Biological Synthesis LLC,” are being added to the Entity List for acquiring and attempting to acquire U.S.-origin items in support of activities contrary to U.S. national security and foreign policy interests. These entities will be added to the Entity List with a license requirement for all items subject to the EAR. BIS will review license applications under a policy of denial, and no license exceptions are available for these entities being added.

#### **Export Control Reform Act of 2018**

On August 13, 2018, the President signed into law the John S. McCain National Defense Authorization Act for Fiscal Year 2019, which included the Export Control Reform Act of 2018 (ECRA) (50 U.S.C. 4801–4852). ECRA provides the legal basis for BIS's principal authorities and serves as the authority under which BIS issues this rule.

[Docket No. FDA–2022–N–0790]

**Medical Devices; Gastroenterology-Urology Devices; Classification of the Non-Implanted Electrical Stimulation Device for Management of Premature Ejaculation**

**AGENCY:** Food and Drug Administration, HHS.

**ACTION:** Final amendment; final order.

**SUMMARY:** The Food and Drug Administration (FDA, Agency, or we) is

classifying the non-implanted electrical stimulation device for management of premature ejaculation into class II (special controls). The special controls that apply to the device type are identified in this order and will be part of the codified language for the non-implanted electrical stimulation device for management of premature ejaculation’s classification. We are taking this action because we have determined that classifying the device into class II (special controls) will provide a reasonable assurance of safety and effectiveness of the device. We believe this action will also enhance patients’ access to beneficial innovative devices.
